INTRODUCTION

This world-renowned dictionary is the first comprehensive visual dictionary in full colour. Covering some 600 subjects, it identifies more than 25,000 terms by the use of thousands of detailed and accurate illustrations. The dictionary lets you see, at a glance, the vocabulary of a subject in not one, but four, languages: English, French, German, and Spanish.

A PICTURE/WORD DICTIONARY

The *Visual Dictionary* closely links pictures and words.

The pictures describe and analyze today's world: the objects of everyday life, our physical environment, the animal and vegetable life that surrounds us, the communication and work techniques that are changing our lifestyles, the weapons that preoccupy us, the means of transportation that are breaking down geographical barriers, the sources of energy on which we depend, etc.

Illustrations play a specific role in our dictionary: they serve to define words, enabling dictionary users to "see" immediately the meaning of each term. Users can thus recognize the objects they are looking for and, at a single glance, find the corresponding vocabulary.

The *Visual Dictionary* provides users with the words they need to accurately name the objects that make up the world around them.

The terms in the dictionary have been carefully selected from current documents written by experts in each area. In case of doubt, the vocabulary has been studied by specialists in the corresponding field and cross-checked in encyclopedias and language dictionaries. We have taken these precautions to ensure the accuracy of each word and a high level of standardization.

A DICTIONARY FOR ONE AND ALL

The *Visual Dictionary* is aimed at all persons who participate in one way or another in contemporary civilization and, as a consequence, need to know and use a great number of technical terms from a wide range of fields.

It thus addresses the needs and curiosity of each and every one of us. It is not designed only for specialists.

The depth of analysis varies according to the subject. Rather than arbitrarily providing a uniform breakdown of each subject, the authors have acknowledged that people's degrees of knowledge differ from one field to another, and that the complexity of the topics dealt with varies widely. For example, more people are familiar with clothing and automobiles than with atomic energy or telecommunications satellites, and find the former subjects simpler than the latter. Another aspect of the same problem is that, in describing human anatomy, we are obliged to use medical terminology, even though the terms seem more

complicated than those for fruits and vegetables. In addition, our world is changing: photographic vocabulary, for example, has become much more complicated due to camera automation. Similarly, although microcomputer fans are familiar with computer terminology, the field remains a mystery for much of the rest of the population.

The *Visual Dictionary* allows for these phenomena, and reflects the specialized vocabulary commonly used in each field.

AN EASY-TO-CONSULT DICTIONARY

People may use the *Visual Dictionary* in several different ways, thanks to the List of Chapters (page xxxi), the detailed table of contents (page xv), and the index (page 833).

Users may consult the dictionary:

By going from an idea to a word. if they are familiar with an object and can clearly visualize it, but cannot find or do not know the name for it. The table of contents breaks down each subject according to an easy-to-consult, stratified classification system. The *Visual Dictionary* is the only dictionary that allows users to find a word from its meaning.

By going from a word to an idea. if they want to check the meaning of a term. The index refers users to the illustrations, which provide the names for the individual features.

At a glance, by using the List of Chapters. The coloured page edges help users find the chapters they are looking for.

For foreign language equivalents. by browsing through the book or going into depth for particular themes. The objects of the modern world are clearly identified at a glance in four languages.

For sheer pleasure. by flipping from one illustration to another, or from one word to another, for the sole purpose of enjoying the illustrations and enriching their knowledge.

A DICTIONARY WITH A DIFFERENCE

We are all familiar with several types of dictionaries and encyclopedias. It is not always easy, however, to grasp their distinguishing features. The following overview highlights the main differences between the *Visual Dictionary* and other reference works.

INTRODUCTION

a) Language dictionaries

These dictionaries describe the meanings given by speakers to the general vocabulary of their language.

They provide two major types of information: headwords (vocabulary), and a list of the meanings of each term (dictionary entries).

The vocabulary, which comprises all of the words covered by lexicographical descriptions, constitutes the framework of the dictionary. For consultation purposes, the headwords are arranged in alphabetical order. Generally speaking, the vocabulary includes common, contemporary language, archaic words useful for understanding the texts or history of a civilization, and a certain number of widely used technical terms.

Each dictionary entry provides an itemized, semantic description of the corresponding headword. Generally, the entry indicates the part of speech for the headword, its etymology and its various meanings, as well as the word's social usage (familiar, colloquial, vulgar, etc.) according to criteria that, even today, remain somewhat "impressionistic."

In general, language dictionaries are classified according to their target users and the number of terms in the vocabulary, which, in addition to nouns, includes all other parts of speech (verbs, pronouns, adjectives, adverbs, prepositions, conjunctions, etc.). A 5,000-word dictionary is intended for children, one with 15,000 words is suitable for schools and a 50,000 word dictionary covers the needs of the general public.

b) Encyclopedic dictionaries

In addition to the information included in language dictionaries, encyclopedic dictionaries provide details about the nature, functioning, and history of things, thus enabling laymen with solid general knowledge and specialists to understand the scope of a word. They devote much more space to technical terms, and reflect current scientific and technological developments. Generally speaking, pictures play an important role in illustrating the text. The size of encyclopedic dictionaries varies according to the breadth of the vocabulary, the length of the entries, the emphasis placed on proper nouns and the number of fields of specialization covered.

c) Encyclopedias

Unlike the preceding category of reference works, encyclopedias do not deal with language. They are devoted to providing scientific, technical, occasionally economic, historical and geographic descriptions. The arrangement of the entries varies, as all classification systems are valid: alphabetic, conceptual, chronological, by field of specialization, etc. The number of different encyclopedias is virtually unlimited, given the fragmentation of civilization into multiple categories. There is, however, a distinction between universal encyclopedias and specialized encyclopedias.

d) Specialized lexicons and vocabularies

These works usually address specific needs created by scientific and technological progress. They focus on ensuring efficient communication through precise, standardized terminology. They vary in all respects: the method of compilation, the authors' approach to the subject matter, the scope of the vocabulary, the number of languages, and the means of establishing equivalents in the various languages (i.e., by simple translation or by a comparison of unilingual terminologies). Specialized lexicography has become an area of intense activity. The number of works is multiplying in all sectors and in all language combinations.

e) The *Visual Dictionary*

The *Visual Dictionary* is a terminology-oriented dictionary. It is aimed at providing members of the general public with the specific terms they need, in their own or another language, to name the objects of daily life, and helping them grasp the meaning of words through illustrations. The dictionary is an ideal tool for both second-language and mother tongue vocabulary building. Grouped together in interlocking categories, the various elements are interdefined. The dictionary is thus organized according to chapters, subjects, specific objects, and features of these objects. Depending on a person's degree of familiarity with a given chapter, the terminology may seem simple or technical. The fundamental goal, however, is to provide non-specialists with a coherent analysis of useful, necessary vocabulary for each subject.

The *Visual Dictionary* is not an encyclopedia, for at least two reasons: rather than describing objects, it names them; in addition, it avoids listing all the objects in a given category. For example, rather than enumerating the various types of trees, it focuses on a typical representative of the category, and examines its structure and individual parts.

It may even less be considered a language dictionary: like other terminological works, it contains no written definitions and covers only nouns and, in particular, noun phrases.

Nor may it be seen as a compendium of specialized vocabularies, as it avoids terminology used only by specialists, focusing instead on more widespread terms—at the risk of being considered simplistic by experts in specific fields.

The *Visual Dictionary* is the first terminology-oriented dictionary to group together in a single volume the thousands of technical and not-so-technical terms most commonly used in our society, where science, technology, and their end products are part of everyday life.

This is the editorial policy that has guided us in creating this dictionary. Consequently, the number of words it contains does not have the same significance as for a language dictionary, for several reasons: in keeping with our editorial policy, we have deliberately chosen to limit

INTRODUCTION

the number of words; unlike conventional dictionaries, this work focuses exclusively on nouns, the most significant words in the language, to the exclusion of adjectives, verbs, prepositions, etc.; and finally no one is sure exactly how to count compound terms!

COMPUTER-PRODUCED ILLUSTRATIONS

The illustrations in the *Visual Dictionary* have been created by computer from recent documents and original photographs.

The use of computers has given the illustrations a highly realistic, almost photographic look, while allowing to highlight the essential features corresponding to the vocabulary. The graphic precision of the *Visual Dictionary* is one of the main sources of its excellence as an encyclopedic and lexicographical reference tool.

In addition, thanks to computers, we have been able to improve the accuracy of the lines joining objects to their names, thus enhancing the clarity of the link between words and the things they describe.

CAREFULLY ESTABLISHED VOCABULARY

In creating the *Visual Dictionary*, we have used the method of systematic and comparative terminological research, which is standard practice among professionals who prepare works of this type.

This method comprises several steps, which follow one another in a logical order. The following paragraphs provide a brief description of each of these steps.

Field delimitation

First of all, on the basis of our objectives, we defined the scope and contents of the proposed work.

We began by choosing the chapters we felt it necessary to cover. We then divided each chapter into fields and sub-fields, taking care to abide by our editorial policy and avoiding overspecialization and the temptation to cover all subjects in detail. This step resulted in a working table of contents, the dictionary framework, which guided our subsequent steps and was refined as the work progressed. The detailed table of contents is the end result of this process.

Documentary research

In keeping with our production plan, we assembled pertinent documents likely to provide us with the required information about words and concepts in each subject matter.

In order of reliability, our documentary sources were as follows:

- Articles and books by experts in the various fields, written in their native language, with an acceptable degree of specialization. Translations of such texts provide revealing information about vocabulary usage, but must be used with due caution;
- Technical documents, such as national standards

or the guidelines of the International Standard Organization (ISO), product instructions, technical documents provided by manufacturers, official government publications, etc.;

- Catalogues, commercial texts, advertisements from specialized magazines and major newspapers;

- Encyclopedias, encyclopedic dictionaries, and unilingual language dictionaries;

- Unilingual, bilingual, and multilingual specialized vocabularies and dictionaries. The quality and reliability of these works, however, must be carefully assessed;

- Bilingual and multilingual language dictionaries.

In all, we consulted four to five thousand references. The selected bibliography included in the dictionary indicates only the general documentary sources consulted, and does not include specialized sources.

Sifting through the documents

A terminologist went through the documents for each subject, in search of specific concepts and the words used to express them by different authors and works. Gradually, a framework was established, as the terminologist noted the use of the same term for a given concept from one source to another, or, on the contrary, the use of several terms for the same idea. In the latter case, the terminologist continued his research until he was able to form a well-documented opinion of each competing term. All of this research was recorded, with reference notes.

Creation of a multilingual terminology base

The English terminology is based on standard British usage; the French terminology on the European French norm; and the Spanish terminology on Castilian usage. The norm for German terminology reflects the criteria used by major German publishing houses. Nothing in this dictionary is the result of translation; all languages have been prepared by renowned specialists and verified by major dictionary houses. Because of this, errors frequently found in other multilingual dictionaries based exclusively on a translation approach have been avoided.

Creation of terminological files

The preceding step enabled us to assemble all of the elements for our terminological files.

Each concept identified and defined by an illustration has been paired with the term most frequently used to describe it by the leading authors or in the most reliable sources. Where several competing terms were found in the reference material, following discussion and consensus between the terminologist and the scientific director, a single term was chosen.

Terminological variants

Frequently, several words may be used to designate virtually the same concept.

We dealt with such situations as follows:

- In some cases, a term was used by a single author or appeared only once in our documentary

INTRODUCTION

sources. We retained the most frequently used competing term.

- Technical terms are often compound words with or without a hyphen, or several-word expressions. This results in at least two types of terminological variants:

a) The compound technical term may be shortened by the deletion of one or more of its elements, especially where the meaning is clear in the context. The shortened expression may even become the normal term for the concept. In such cases, we retained the compound form, leaving users the freedom to abbreviate it according to the context.

b) An element of the compound term may itself have equivalents (most often synonyms from the commonly spoken language). We retained the most frequently used form.

Variants may stem from the evolution of the language, without terminological consequences. We therefore retained the most contemporary or well-known form.

TERMINOLOGICAL APPROACH

A few comments about the terminological approach, as compared to the lexicographical approach, are in order.

Language dictionaries have a long history. They are familiar reference works, used by most people since early school age, with a well-established, widely known and accepted tradition. We all know how to consult a dictionary and interpret the information it provides—or fails to provide.

Terminological dictionaries are either very recent or intended for a specialized public. There is no solid tradition to guide those who design and produce such works. Although specialists know how to interpret dictionaries pertaining to their own fields, given that they are familiar with the terminology, the same cannot be said for the layperson, who is confused by variants. Finally, whereas language dictionaries have to a certain extent established standard word usage among their users, specialized vocabularies are characterized by competing terms in new fields of specialization.

Users of a reference work such as the *Visual Dictionary* should take into account these elements in assessing this new type of reference tool.

HOW TO USE THE DICTIONARY

HEADING •

identifies the topic of each page.

SUBHEADING •

indicates the object depicted.

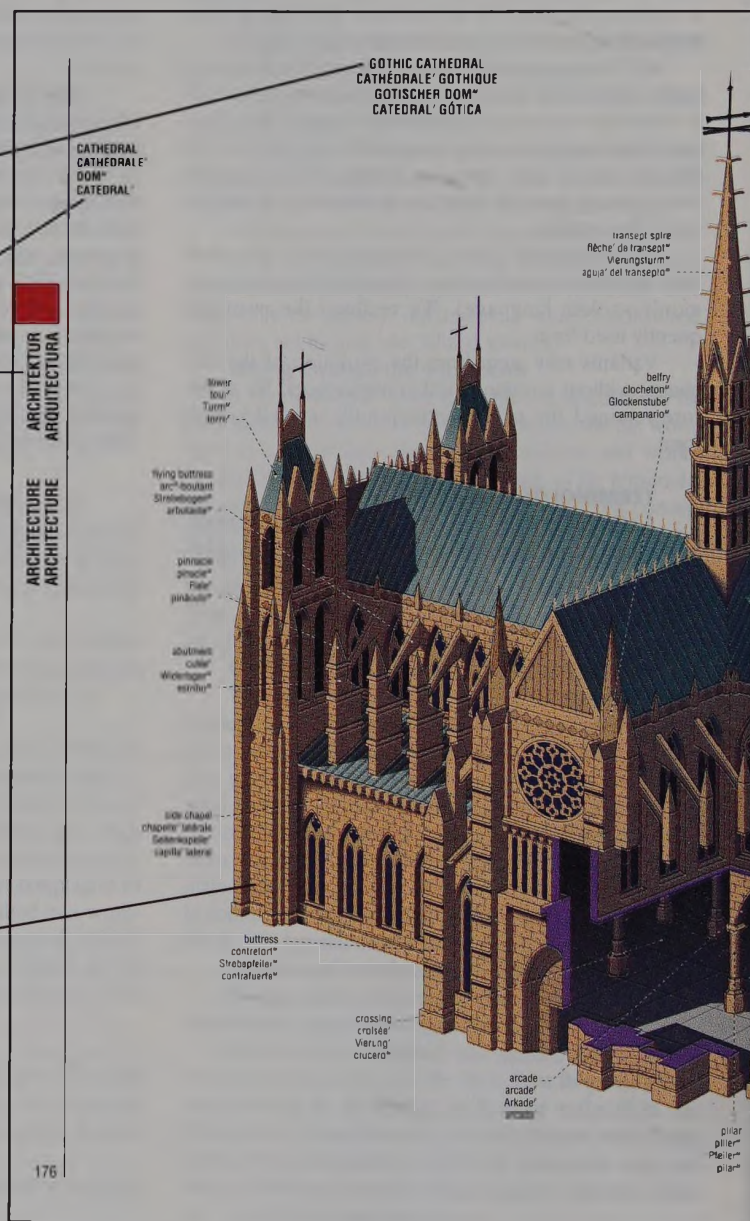

CHAPTER •

of the dictionary is shown in the side margin on each page.

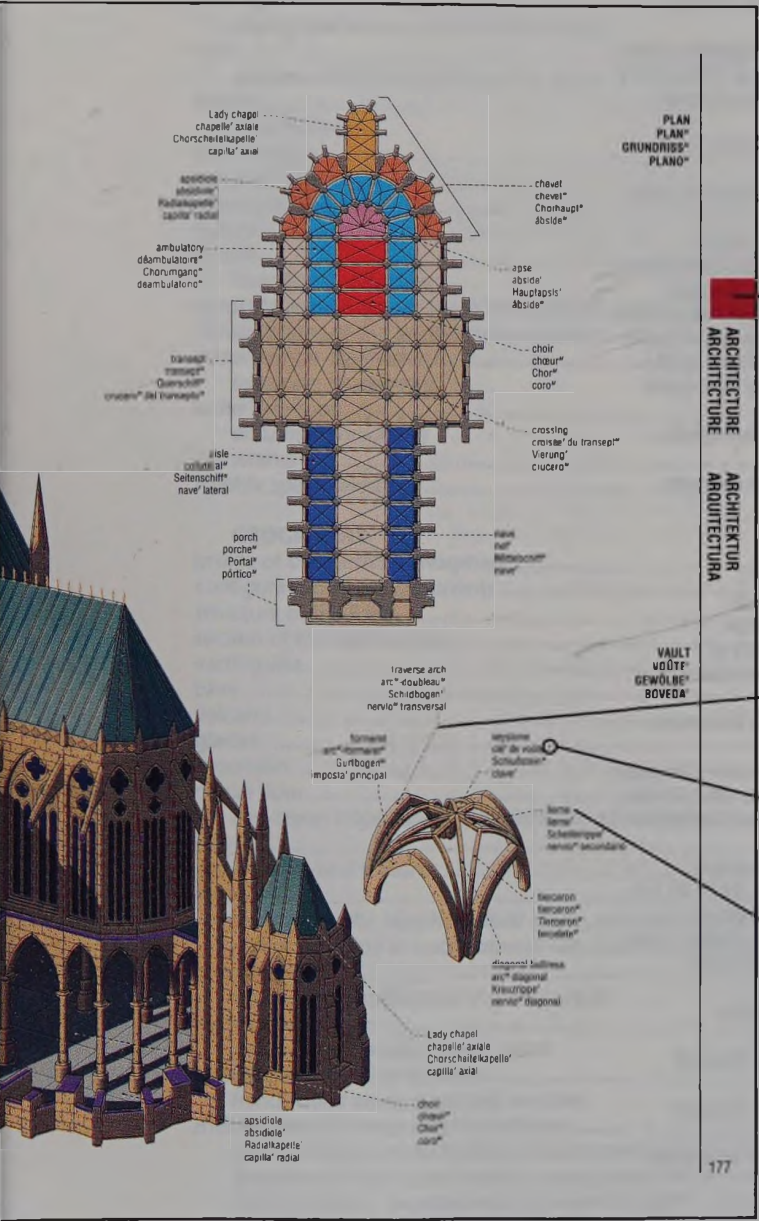

To find the correct term for something, start by turning to the table of contents, which lists the dictionary's chapters, headings, and subheadings, with the first page reference for each heading.

COLOUR ILLUSTRATIONS •

realistically depict the objects and their component parts.

 HUMAN BEING	
plant cell.....	115
animal cell.....	115
human body	116
muscles.....	120
<i>anterior view, posterior view</i>	
skeleton	122
<i>anterior view, posterior view</i>	
blood circulation	124
<i>circulation diagram, heart, principal veins and arteries</i>	
male genital organs.....	127
<i>sagittal section, spermatozoon</i>	
female genital organs.....	128
<i>egg, sagittal section</i>	
breast.....	129
respiratory system	130
digestive system.....	131
<i>large intestine, small intestine</i>	
urinary system.....	132
nervous system	133
<i>peripheral nervous system, central nervous system, lumbar vertebra, chain of neurons, sensory impulse</i>	
sense organs: touch	136
<i>skin, finger, hand</i>	
sense organs: hearing.....	138
<i>parts of the ear, auditory ossicles, auricle</i>	
sense organs: sight.....	140
<i>eye, eyeball</i>	
sense organs: smell	141
<i>external nose, nasal fossae</i>	

TABLE OF CONTENTS

senses of smell and taste	142
<i>mouth, sagittal section, dorsum of tongue, taste sensations</i>	
teeth	144
<i>human denture, cross section of a molar</i>	
FARMING	
tractor	147
farmstead	148
farm animals	150
principal types of cereal	152
bread	153
steps in soil cultivation	154
<i>ribbing plough, manure spreader, tandem disc harrow, cultivator, seed drill, flail mower, rake, hay baler, combine harvester, forage harvester, forage blower</i>	
ARCHITECTURE	
traditional dwellings	165
architectural styles	166
<i>doric order, ionic order, corinthian order</i>	
Greek temple	168
Roman house	170
mosque	172
types of arch	174
<i>semicircular arch, types of arches</i>	
gothic cathedral	175
Vauban fortification	178
castle	180
roofs	182
city centre	184
cross section of a street	186
town houses	187
theatre	188
<i>stage</i>	
office building	190
HOUSE	
reading plans	193
<i>elevation, site plan, mezzanine floor, first floor, ground floor</i>	
exterior of a house	196
structure of a house	198
<i>timber frame, roof truss, foundations</i>	
wood flooring	200
<i>wood flooring on cement screed, wood flooring on wooden base, wood flooring types</i>	
stairs	201
door	202
<i>exterior door, types of door</i>	
window	203
<i>structure, types of window</i>	
heating	204
<i>fireplace, slow-burning stove, chimney, fire irons, forced warm-air system, electric furnace, types of outlet, pumped hot-water system, gilled-tube radiator, boiler, oil burner, humidifier, hygrometer, floor-level electric convector, convector heater, auxiliary heating, heat pump, room thermostat</i>	
air conditioning	214
<i>ceiling fan, room air conditioner</i>	
plumbing system	215

TABLE OF CONTENTS

pedestal-type cesspit pump.....	216
septic tank	216
HOUSE FURNITURE	
table	219
<i>principal types of table</i>	
armchair	220
<i>principal types of armchair</i>	
seats.....	222
side chair	223
<i>types of chair</i>	
bed	224
<i>bed linen</i>	
storage furniture	225
<i>armoire</i>	
window accessories.....	228
<i>types of curtain, types of pleat, types of heading, curtain pole, curtain track, traverse rod, roller blind, Venetian blind</i>	
lights.....	232
<i>incandescent light bulb, fluorescent tube, tungsten-halogen bulb, energy saving bulb, adjustable lamp, track lighting, chandelier</i>	
glassware	237
crockery	238
cutlery.....	239
<i>principal types of knife, principal types of fork, principal types of spoon</i>	
kitchen utensils	242
<i>types of kitchen knife, for straining and draining, for grinding and grating, set of utensils, for opening, for measuring, baking utensils</i>	
coffee makers.....	247
<i>automatic filter coffee maker, vacuum coffee maker, percolator, cafetière with plunger, Neapolitan coffee maker, espresso coffee maker</i>	
cooking utensils	248
<i>wok set, fish kettle, fondue set, pressure cooker</i>	
domestic appliances.....	250
<i>blender, hand mixer, hand blender, table mixer, beaters, food processor, discs, lemon squeezer, ice cream maker, juice extractor, kettle, toaster, deep fryer, waffle iron, microwave oven, griddle, refrigerator, extractor hood, electric cooker, steam iron, coffee mill, tin opener, dishwasher, washing machine, electric tumble dryer, hand vacuum cleaner, cylinder vacuum cleaner, cleaning tools</i>	
GARDENING	
pleasure garden	263
tools and equipment.....	264
<i>impulse sprinkler, revolving sprinkler, hose trolley, watering can, hedge trimmer, motorized ground auger, wheelbarrow, hand mower, trimmer, power mower, chainsaw, Rotavator</i>	
DO-IT-YOURSELF	
carpentry: tools	275
<i>claw hammer, nail, ball-peen hammer, mallet, screwdriver, spiral screwdriver, screw, plane, hacksaw, handsaw, slip joint pliers, water pump pliers, mole wrench, washers, adjustable spanner, bolt, nut, electric drill, hand drill, brace, auger bit, twist drill bit, G-clamp, vice, router, pillar drill, circular saw, table saw</i>	
building materials	286
<i>basic building materials, covering materials, insulating materials, wood, board, wood-based materials</i>	

TABLE OF CONTENTS

lock.....	290
<i>mortise lock, tubular lock</i>	
masonry.....	291
<i>mason's trowel, caulking gun</i>	
plumbing: bathroom.....	292
<i>toilet</i>	
plumbing.....	294
<i>bib tap, ball-type mixer, disc mixer, cartridge mixer, sink with waste disposal unit, geyser</i>	
plumbing: examples of branching.....	298
<i>washing machine, dishwasher</i>	
plumbing.....	299
<i>plumbing tools, mechanical connections, transition fittings, fittings</i>	
ladders and stepladders.....	302
<i>stepladder, extension ladder, platform ladder</i>	
painting accessories.....	304
<i>spray gun, scraper, paintbrush, paint roller</i>	
soldering and welding.....	305
<i>soldering gun, arc welding, cutting torch, welding torch, oxyacetylene welding, pressure regulator, butt welding, blowtorch, striker</i>	
welding: protective equipment.....	308
electricity.....	309
<i>lampholder, American plug, European plug, electrician's tools, multimeter, tester screwdriver, inspection light, multipurpose tool, combination pliers, wire stripper, fuse box, fuses</i>	
 CLOTHING	
features of historical costume.....	315
men's clothing.....	319
<i>raincoat, trench coat, duffle coat, overcoat, windcheater, parka, double-breasted jacket, waistcoat, single-breasted jacket, belt, braces, trousers, shirt, necktie, underwear, briefs, vest, socks</i>	
sweaters.....	326
<i>V-neck cardigan, knit shirt</i>	
gloves.....	327
headgear.....	328
<i>trilby, hunting cap, cap, balaclava, rainhat</i>	
women's clothing.....	330
<i>types of coat, pea jacket, raglan, pelerine, cape, suit, types of dress, types of skirt, types of pleat, types of trousers, types of blouse, waistcoats and jackets, types of pockets, types of sleeves, types of collars, necklines and necks, hose, underwear, bra, nightwear</i>	
children's clothing.....	349
<i>hooded towelling robe, plastic pants, frilly pants, blanket sleepsuit, high-back dungarees, sleepsuit, babygro, training set, dungarees with crossover back straps, snowsuit</i>	
sportswear.....	352
<i>running shoe, training suit, exercise wear</i>	
shoes.....	354
<i>parts of a shoe, principal types of shoe, accessories</i>	
 PERSONAL ADORNMENT	
jewellery.....	361
<i>earrings, necklaces, cut for gemstones, brilliant cut facets, precious stones, semiprecious stones, rings, bracelets, pins, charms</i>	
manicure.....	365
<i>manicure set, manicuring implements, nail clippers</i>	

TABLE OF CONTENTS

make-up	366
<i>lip make-up, eye make-up, sponges</i>	
hairdressing	368
<i>illuminated mirror, hairbrushes, combs, haircutting scissors, notched double-edged thinning scissors, notched single-edged thinning scissors, hair roller, hairstyling accessories, curling iron, styling brush, hair dryer</i>	
PERSONAL ARTICLES	
dental care	373
<i>toothbrush, electric toothbrush</i>	
razors	374
<i>electric razor, cut-throat razor, double-edged razor, shaving brush</i>	
umbrella and stick	375
<i>umbrella, telescopic umbrella, stick umbrella</i>	
spectacles	376
<i>parts of spectacles, bifocal lens, frames, principal types of spectacles</i>	
leather goods	378
<i>attaché case, briefcase, bottom-fold document case, calculator/cheque book holder, credit card wallet</i>	
handbags	380
<i>satchel bag, shoulder bag, accordion bag, drawstring bag</i>	
luggage	382
<i>travel bag, vanity case, suit carrier, luggage trolley, suitcase, weekend case, trunk</i>	
smoking accessories	384
<i>cigar, cigarette, cigarette packet, pipe, pipe tools, book of matches, matchbox, gas lighter, ashtray</i>	
writing instruments	389
<i>fountain pen, communications, ballpoint pen</i>	
photography	390
<i>cross section of a reflex camera, camera back, single-lens reflex (SLR) camera, lenses, lens accessories, photographic accessories, electronic flash, tripod, still cameras, films, exposure meter, spotmeter, slide projector, projection screen, slide, developing tank, negative carrier, enlarger, developing baths, print washer</i>	
stereo sound system	400
<i>system components, loudspeaker, tuner, amplifier, cassette, cassette tape deck, record, turntable unit, compact disc, compact disc player</i>	
dynamic microphone	406
headphones	406
radio: studio and control room	407
portable sound systems	408
<i>personal radio cassette player, portable CD radio cassette recorder</i>	
video camera	409
television	410
<i>television set, picture tube, remote control, videocassette recorder, studio and control rooms, production control room, studio floor, camera</i>	
mobile unit	415
satellite broadcasting	416
telecommunications by satellite	417
telecommunication satellites	418
<i>examples of satellites, Eutelsat II, launching into orbit</i>	
communication by telephone	420
<i>telephone answering machine, telephone, telex, fax machine, types of telephone, telecommunication terminal, pay phone</i>	

TABLE OF CONTENTS

ROAD TRANSPORT

car	425
<i>types of bodywork, body, bucket seat, rear seat, door, lights, dashboard, instrument panel, windscreen wiper, disc brake, drum brake, tyre, belted radial tyre, wheel, petrol engine</i>	
types of engine	436
<i>four-stroke engine, two-stroke engine, diesel engine, rotary engine, radiator, turbo-charged engine, sparking plug, exhaust system, battery</i>	
trucking	440
<i>tractor unit, articulated lorry with trailer, semitrailer, flatbed</i>	
motorcycle.....	442
<i>crash helmet, instrument cluster</i>	
snowmobile	445
bicycle	446
<i>power train, accessories</i>	
caravan	449
<i>trailer caravan, camper</i>	
road system	450
<i>cross section of a road, principal types of interchange, cloverleaf</i>	
service station	453
<i>petrol pump, service station</i>	
fixed bridges	454
<i>types of beam bridge, types of arch bridge, types of arch, suspension bridge, cable-stayed bridges</i>	
movable bridges	457
<i>swing bridge, floating bridge, single-leaf bascule bridge, lift bridge, transporter bridge</i>	

RAIL TRANSPORT

high-speed train.....	458
types of passenger coach	460
<i>open-plan coach, sleeping car, restaurant car</i>	
passenger station	462
railway station	464
marshalling yard	465
railway track.....	466
<i>rail joint, rail section, railway track, remote-controlled points, manually-operated points</i>	
diesel-electric locomotive	468
goods van	470
<i>bogie van, container, coupling</i>	
level crossing	471
types of goods truck.....	472
underground railway.....	474
<i>underground station, bogie and track, underground train, passenger car</i>	

MARITIME TRANSPORT

four-masted bark.....	478
<i>masts and rigging, sails</i>	
types of sail	482
types of rig.....	482
anchor	483
<i>ship's anchor, types of anchor</i>	
navigation devices.....	484
<i>sextant, liquid compass, echo sounder, echo sounder probe</i>	
maritime signals.....	486
<i>lighthouse lantern, lighthouse, cylindrical buoy, high focal plane buoy</i>	
maritime buoyage system	488

TABLE OF CONTENTS

<i>cardinal marks, buoyage regions, operational pattern of marks by night, daymarks (region B)</i>	
harbour	490
canal lock	492
hovercraft	492
ferry	494
container ship	494
hydrofoil boat	495
cruiseline	496
AIR TRANSPORT	
long-range jet airliner	498
types of tail unit	498
types of wing	499
flight deck	500
turbofan engine	501
airport	502
<i>passenger terminal, runway, ground airport equipment</i>	
helicopter	508
SPACE TRANSPORT	
rocket	509
space shuttle	510
<i>space shuttle at takeoff, space shuttle in orbit</i>	
spacesuit	512
OFFICE SUPPLIES	
stationery	515
office furniture	520
calculator	523
<i>pocket calculator, printing calculator</i>	
electronic typewriter	524
OFFICE AUTOMATION	
configuration of an office automation system	526
<i>input devices, communication devices, data storage devices, output devices</i>	
basic components	528
<i>personal computer (view from above), video monitor, floppy disc, mini-floppy disc, hard disc drive, keyboard, mouse, dot matrix printer</i>	
photocopier	532
<i>control panel</i>	
MUSIC	
traditional musical instruments	535
<i>zither, mandolin, lyre, balalaika, banjo, accordion, bagpipes, Jew's harp</i>	
musical notation	537
<i>staff, clefs, time signatures, scale, intervals, note values, rest values, accidentals, ornaments, chord, other signs</i>	
musical accessories	539
<i>music stand, tuning fork, quartz metronome, metronome</i>	
keyboard instruments	540
<i>upright piano, upright piano action</i>	
organ	542
<i>organ console, flue pipe, reed pipe, mechanism of the organ, production of sound</i>	
stringed instruments	544
<i>violin, bow, violin family, harp, acoustic guitar, electric guitar</i>	
wind instruments	548

TABLE OF CONTENTS

saxophone, woodwind family, reeds, trumpet, brass family	
percussion instruments.....	552
<i>drums, snare drum, kettledrum, triangle, tambourine, xylophone</i>	
electronic instruments.....	555
<i>synthesizer, electronic piano</i>	
symphony orchestra.....	556
examples of instrumental groups	558

CREATIVE LEISURE ACTIVITIES

sewing	561
<i>sewing machine, foot control, presser foot, needle, tension block, bobbin case, pin cushion, tracing wheel, scissors, lining fabrics, pattern, fasteners, hook and eyes, fabric structure, snap fastener, buckle, zip fastener</i>	
knitting	567
<i>knitting needles, crochet hook, stitch patterns</i>	
knitting machine	568
<i>needle bed and carriages, latch needle, tension block</i>	
bobbin lace.....	570
<i>pillow, bobbin</i>	
embroidery	571
<i>frame, hoop, cross stitches, flat stitches, couched stitches, knot stitches, loop stitches</i>	
weaving	572
<i>low warp loom, heddles, shuttle, high warp loom, bobbin winder, ball winder, warping frame, diagram of weaving principle, basic weaves, other techniques</i>	
fine bookbinding.....	577
<i>bound book, gathering, trimming, sawing-in, sewing, board cutter, sewing frame, pressing, standing press, backing, backing press, backing hammer, covering, bookbinding leather</i>	
printing.....	580
<i>relief printing, intaglio printing, lithographic printing</i>	
relief printing process.....	581
<i>inking slab, equipment, etching press</i>	
intaglio printing process.....	582
<i>equipment</i>	
lithography	583
<i>levigator, lithographic press, equipment</i>	
pottery.....	584
<i>turning, tools, coiling, turning wheel, slab building, electric kiln, firing</i>	
wood carving.....	586
<i>steps, accessories, types of tools, principal types of carving blade</i>	
painting and drawing.....	588
<i>principal techniques, equipment, supports, airbrush, drawing board, accessories, useful liquids</i>	

TEAM GAMES

baseball.....	595
<i>catcher, batter, bat, baseball, fielder's glove, field</i>	
cricket.....	598
<i>cricket player, cricket ball, bat, wicket, field, pitch</i>	
association football	600
<i>footballer, football, playing field</i>	
American football.....	602
<i>American football player, protective equipment, football, scrimmage, offence, defence, playing field for American football, playing field for Canadian football, scrimmage in Canadian football</i>	

ÍNDIX DE MATÈRIES

futbol.....	600
<i>futbolista, pilota de futbol, camp</i>	
futbol americà.....	602
<i>jugador, equip de protecció, pilota de futbol americà, xoc, atac, defensa, camp de futbol americà, camp de futbol canadenc, xoc en futbol canadenc</i>	
rugbi.....	606
<i>camp, pilota de rugbi</i>	
hoquei sobre herba.....	607
<i>camp, estic, pilota d'hoquei</i>	
hoquei sobre gel.....	608
<i>pista, disc, estic de jugador, porter, jugador</i>	
bàsquet.....	610
<i>pista, cistella, pilota de bàsquet</i>	
netball.....	611
<i>pista, pilota</i>	
handbol.....	612
<i>pista, pilota</i>	
voleibol.....	613
<i>pista, pilota, xarxa</i>	
tennis.....	614
<i>pista, xarxa, jugadora de tennis, raqueta de tennis, pilota de tennis</i>	
esquaix.....	616
<i>pilota d'esquaix, raqueta d'esquaix, pista internacional d'individuals</i>	
raquetbol.....	617
<i>pilota de raquetbol, raqueta de raquetbol, pista</i>	
bàdminton.....	618
<i>raqueta de bàdminton, volant, pista, xarxa</i>	
ping-pong.....	619
<i>taula, tipus de presa, pala de ping-pong</i>	
curling.....	620
<i>pedra de curling, pista, escombres de curling</i>	

ESPORTS AQUÀTICS

natació.....	621
<i>piscina olímpica, bloc de sortida, crol, braça, papallona, sortida d'esquena, esquena</i>	
salts de trampolí.....	624
<i>trampolí, posicions de sortida, vols, entrades a l'aigua, salt endavant, salt enrere, salt en equilibri, salt amb tirabuixó, salt invers, salt endins</i>	
waterpolo.....	626
<i>superfície de joc, porteria, pilota de waterpolo</i>	
submarinisme.....	627
<i>submarinista</i>	
vela.....	628
<i>veler, disposició de les veles, obra morta, carril d'escota</i>	
surf de vela.....	631
rem.....	632
<i>rem en couple, rem en punta, tipus de rem, bots de couple, outriggers</i>	
esquí aquàtic.....	633
<i>tipus d'esquí, esquí, esquí d'eslàlom, esquí de figures, tipus de punys</i>	

ESPORTS AERIS

vol aerostàtic.....	634
<i>globus, cistella</i>	
caiguda lliure.....	635
<i>paracaigudista</i>	
ala de pendent.....	636
<i>ala de pendent</i>	

ÍNDEX DE MATÈRIES

vol lliure.....	637
<i>ala delta</i>	
vol sense motor.....	638
<i>planador, cabina de pilotatge</i>	
ESPORTS D'HIVERN	
esquí alpí.....	640
<i>esquiador alpí, fixació de seguretat, bota d'esquí</i>	
esquí de fons.....	642
<i>esquiadora de fons, esquí de fons</i>	
luge.....	643
bobsleigh.....	643
patinatge.....	644
<i>patí de patinatge artístic, patí d'hoquei, patí de velocitat, protector de la ganiveta</i>	
raqueta.....	645
<i>raqueta tipus Michigan</i>	
patí en línia.....	645
ESPORTS EQÜESTRES	
equitació: concurs de salts.....	646
<i>recorregut de salts d'obstacles, obstacles, genet, sella, brida</i>	
tipus de frens.....	650
<i>filet, fre de sotabarba</i>	
carrera de cavalls.....	651
<i>joquei, tribuna i pista</i>	
carreres al trot.....	652
<i>sulky</i>	
ATLETISME	
atletisme.....	654
<i>estadi, bloc de sortida, salt d'alçada, salt de perxa, llançaments, martell, javelines, pes, disc</i>	
gimnàstica.....	659
<i>cavall de salts, barres asimètriques, trampolí, barra d'equilibri, trampolí elàstic, anelles, barra horitzontal, cavall amb arcs, barres paral·leles</i>	
halterofília.....	662
<i>aixecador, arrencada, dos temps</i>	
aparells d'exercicis.....	663
<i>banc de musculació, halter, bicicleta estàtica, pesos, màquina de remar, barra de torsió</i>	
ESPORTS DE COMBAT	
esgrima.....	666
<i>parts de l'arma, armes, pista, esgrimidor, blancs, posicions</i>	
judo.....	668
<i>quimono, exemples de preses, tatami</i>	
boxa.....	669
<i>ring, embenat, guants de boxa</i>	
ESPORTS RECREATIUS	
pesca.....	670
<i>canya de mosca, rodet, mosca artificial, canya de llançar, rodet de tambor fix, ham, esquer de cullera, baix de l'ormeig, roba de pesca, accessoris</i>	
billar.....	673
<i>carambola, billar americà, billar anglès, snooker, taula, cavallet, tac de billar</i>	
golf.....	676
<i>recorregut, pilota de golf, fusta, ferro, bastons de golf, guant de golf, caputxó de bastó, carretó de golf, bossa de golf, carro de golf elèctric</i>	

ÍNDIX DE MATÈRIES

alpinisme.....	680
<i>alpinista, martell piolet, mosquetó, pitó de rosca, piolet, descensor, encastador, pitó</i>	
bitlles i botxes.....	682
<i>gespa, llançament</i>	
joc de bitlles.....	683
<i>bola, tipus de bitlles, disposició de les bitlles, pista</i>	
tir amb arc.....	684
<i>fletxa, arquer, arc de politges, blanc</i>	
CÀMPING	
càmping.....	685
<i>tenda de dues persones, tenda familiar, tenda de campanya, principals tipus de tendes de campanya, lliteres i matalassos, sacs de dormir, navalla suïssa, estris de cuina, coberts de càmping, accessoris de propà o butà, llanterna, estufeta de gas, cuina portàtil de dos fogons, fogó de gas, eines</i>	
nusos.....	691
<i>entolladura</i>	
cable.....	692
<i>cable retort, cable trenat</i>	
JOCS D'INTERIOR	
naips (baralla francesa).....	695
<i>símbols, combinacions de pòquer</i>	
dòmino.....	695
escacs.....	696
<i>escaquer, tipus de moviments, peces</i>	
jaquet.....	697
go.....	697
<i>tauler (go-ban), principals moviments</i>	
joc de dards.....	698
<i>rodella, dard, àrea de joc</i>	
sistema de jocs de vídeo.....	699
daus.....	699
taula de ruleta.....	700
<i>ruleta americana, taula d'apostes americana, ruleta francesa, taula d'apostes francesa</i>	
màquina escurabutxaques.....	702
APARELLS DE MESURES	
mesura de la temperatura.....	705
<i>termòmetre, termòmetre clínic, termòmetre bimetal·lic, termosta ambiental</i>	
mesura del temps.....	706
<i>cronòmetre, rellotge mecànic, rellotge analògic, rellotge digital, rellotge solar, rellotge de caixa, mecanisme del rellotge de pes</i>	
mesura del pes.....	708
<i>balança de braços iguals, romana, balança de Roberval, pesador de ressort, balança electrònica, bàscula de bany, balança de precisió</i>	
mesura de la pressió.....	710
<i>baròmetre/termòmetre, tensímetre</i>	
mesura de llargada.....	711
<i>cinta mètrica</i>	
mesura de distància.....	711
<i>podòmetre</i>	
mesura d'espessor.....	711
<i>pàlmer</i>	
wattímetre.....	712
<i>vista exterior, mecanisme</i>	

ÍNDEX DE MATÈRIES

mesura d'angles	713
<i>teodolit, salta-regle, transportador</i>	
mesura d'ones sísmiques	714
<i>detecció d'ones sísmiques, amplificació d'ones sísmiques, transcripció d'ones sísmiques, visualització d'ones sísmiques</i>	
INSTRUMENTS ÒPTICS	
microscopi d'electrons	717
<i>secció d'un microscopi d'electrons, elements d'un microscopi d'electrons</i>	
microscopi binocular	718
visor telescòpic	718
prismàtics	719
brúixola magnètica	719
telescopi reflector	720
telescopi refractor	721
lents	722
<i>lents convergents, lents divergents</i>	
radar	722
SALUT I SEGURETAT	
farmaciola de primers auxilis	725
material de primers auxilis	726
<i>estetoscopi, xeringa, llitera d'hospital, llitera</i>	
cadira de rodes	727
auxiliars ortopèdics per caminar	728
<i>crossa d'avantbraç, crossa corrent, bastons</i>	
protecció de l'oïda	729
<i>protector d'oïda, orellera antisoroll</i>	
protecció dels ulls	729
<i>ulleres de seguretat, ulleres de protecció</i>	
protecció del cap	729
<i>casc de seguretat</i>	
protecció de les vies respiratòries	730
<i>màscara de gas, màscara protectora buconasal</i>	
armilla de seguretat	730
protecció dels peus	730
ENERGIA	
mina de carbó	733
<i>mina a cel obert en embut, mina a cel obert transversal, martell perforador de cilindre pneumàtic, boca de mina, martell pneumàtic, mina subterrània</i>	
petroli	737
<i>camp de perforació, sistema rotatori, plataforma de producció, perforació marina, arbre de connexions, xarxa d'oleoductes, tanc de sostre fix, tanc de sostre flotant, camió cisterna, petrolier, vagó cisterna, productes de refinaria</i>	
electricitat	746
<i>complex hidroelèctric, secció d'una central hidroelèctrica, presa de terraplè, presa de gravetat, presa de volta, presa de contraforts, central mareomotriu, turboalternador, turbina Francis, turbina Kaplan, roda Pelton, etapes de la producció d'electricitat, torre d'alta tensió, transport d'electricitat, connexió aèria</i>	
energia nuclear	758
<i>central nuclear, reactor de diòxid de carboni, reactor d'aigua pesant, reactor d'aigua a pressió, reactor d'aigua en ebullició, seqüència del maneig del combustible, feix de càrrega de combustible, reactor nuclear, producció d'electricitat amb energia nuclear</i>	

INDEX DE MATÈRIES

energia solar	768
cèl·lula solar, captador solar pla, circuit de cèl·lules solars, forn solar, producció d'electricitat amb energia solar, casa solar, paret de Trombe	
energia eòlica	773
molí de vent, molí giratori, turbina de vent d'eix horitzontal, turbina de vent d'eix vertical	
MAQUINÀRIA PESANT	
prevenció d'incendis	777
llum portàtil, bomber, corretja per a escala i mànega, casc de bomber	
camions de bombers	778
camió bomba, camió d'escala telescòpica, extintor	
vehícles pesants	782
carregadora amb retroexcavadora, bulldòzer, estripadora de paviment, anivelladora, camió de trabuc, pala hidràulica	
maneig de materials	786
grua torre, grua automòbil, grua de pòrtic, transportadora de forqueta, paleta amb ales, paleta de caixa, transportadora hidràulica de forqueta	
ARMES	
armes de l'edat de pedra	791
armes de l'època romana	791
guerrer gal, legionari romà	
armadura	792
elm	
arcs i ballesta	793
arc, ballesta

laver à la machine[™] à l'eau[™] tiède avec agitation[™] réduite
Hand- und Maschinenwäsche[™], Schonwaschgang[™]
lávese en lavadora[™] con agua[™] tibia en el ciclo[™] para ropa[™] delicada

machine wash in warm water at a gentle setting/reduced agitation
laver à la machine[™] à l'eau[™] chaude avec agitation[™] réduite
Hand- und Maschinenwäsche[™], Schonwaschgang[™]
lávese en lavadora[™] con agua[™] caliente en el ciclo[™] para ropa[™] delicada

machine wash in warm water at a normal setting
laver à la machine[™] à l'eau[™] chaude avec agitation[™] normale
Hand- und Maschinenwäsche[™], Normalwaschgang[™]
lávese en lavadora[™] con agua[™] caliente, en el ciclo[™] normal

machine wash in hot water at a normal setting
laver à la machine[™] à l'eau[™] très chaude avec agitation[™] normale
Hand- und Maschinenwäsche[™], Normalwaschgang[™]
lávese en lavadora[™] con agua[™] muy caliente, en el ciclo[™] normal

do not use chlorine bleach
ne pas utiliser de chlorure[™] décolorant
nicht chloren
no use lejía[™] de cloro[™]

use chlorine bleach as directed
utiliser un chlorure[™] décolorant suivant les indications[™]
chloren möglich
use lejía[™] de cloro[™] siguiendo las indicaciones[™]

DRYING
SÉCHAGE[™]
TROCKNEN[™]
SECADO[™]

hang to dry
suspendre pour sécher
zum Trocknen[™] hängen
cuelgue al aire[™] libre después de escurrir

dry flat
sécher à plat
zum Trocknen[™] legen
seque extendido sobre una toalla[™] después de escurrir

tumble dry at medium to high temperature
sécher par culbutage[™] à moyenne ou haute température[™]
Wäschetrockner[™] mit mittlerer bis hoher Temperatur[™]
seque en secadora[™] a temperatura[™] de mediana a alta

tumble dry at low temperature
sécher par culbutage[™] à basse température[™]
Wäschetrockner[™] mit niedriger Temperatur[™]
seque en secadora[™] a temperatura[™] baja

drip dry
suspendre pour sécher sans essorer
tropfnaß hängen
cuelgue sin exprimir, dando forma[™] a mano[™]

THE VISUAL DICTIONARY

ENGLISH • FRENCH • GERMAN • SPANISH

To help you identify or describe an object, understand every aspect of an action or event, grasp meanings readily and express yourself clearly, we have designed and produced *The Visual Dictionary*, a full-colour reference tool that combines the power of images with accurate terminology. Published in several languages and distributed in more than a hundred countries, *The Visual Dictionary* has become an international benchmark. No other reference tool can match its originality, the quality of its illustrations, the precision of its vocabulary, its wealth of information or its user-friendliness.

**3 500 COLOUR
ILLUSTRATIONS**

600 SUBJECTS
